

CIGNA HOME DELIVERY PHARMACY DRUG LIST

For customers who must use home delivery for maintenance medications

Under your prescription drug plan, you have to fill prescriptions for maintenance medications (those taken on a regular basis) through Cigna Home Delivery Pharmacy®. Depending on your benefit plan, you may be allowed one, two or three fills at an in-network retail pharmacy before you have to use Cigna Home Delivery Pharmacy. At that time, if you haven't switched to Cigna Home Delivery Pharmacy, your plan will not cover the cost of your medication. Check your plan materials for the details of your specific medical plan.

In addition to helping you save on medication costs, Cigna Home Delivery Pharmacy offers valuable benefits, such as:

- › Licensed pharmacists available 24/7/365
- › Up to a 90-day supply of medications in one fill
- › Free standard, on-time delivery to your home or location of your choice
- › Reminders if you forget to fill your prescriptions
- › Specialty medications, including those that require refrigeration and overnight delivery

Visit [myCigna.com](https://mycigna.com) or the myCigna Mobile App* to search for medications, view medication costs based on your plan and see lower-cost alternatives.**

If you have questions

Just call us using the toll-free number on the back of your ID card. We're here to help.

This list of medications must be filled at Cigna Home Delivery Pharmacy. Please note: This list is subject to change, and may not exactly match what is covered on your specific pharmacy plan. Please check your enrollment materials for more information on the medications covered under your plan and to see if there are any additional requirements such as prior authorization (PA), quantity limits (QL) or Step Therapy (ST).

Together, all the way.®

Offered by Cigna Health and Life Insurance Company, Connecticut General Life Insurance Company, or their affiliates.

Cigna reserves the right to make changes to this Drug List without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

* The downloading and use of the myCigna Mobile App is subject to the terms and conditions of the App and the online stores from which it is downloaded. Standard mobile phone carrier and data usage charges apply.

** Prescription savings may not be available for some medications.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.
