

Managing Claims Just Got Easier

Managing claims shouldn't be difficult. Mutual of Omaha always has our customers in mind, which is why we created our Employee Portal to allow for easy claims access.

Our Employee Portal provides real-time information to employees giving them the ability to view current claims, access claim forms, and submit a new claim for short-term disability benefits.

Getting Started

Getting started is easy. An employee will need to register through the portal and follow the steps to complete the registration. If they already have an account, they will log in with their credentials. Once registration is complete, the employee will be notified.

Once an employee has created an account, they can:

- View current claims for accident, critical illness and disability
- Submit new short-term disability claims
- Access claims payment history
- Download claim forms

Note: If an employee does not have any claims, the claims section will not appear within the dashboard when they first log in.

Visit www.mutualofomaha.com/my-benefits to access the Employee Portal today.

Microsoft Edge, Google Chrome and/or Firefox are the preferred browsers to use when accessing the portal.

— We are here for you —
